

Log-in Gender, a WISCOMP initiative, is an innovative and dialogic online portal that seeks to serve as a resource for educators, students, and administrators who wish to engage with their institutional spaces, structures, and practices. It is envisioned as an interactive and dynamic space for sharing ideas, perspectives, and best practices on gender justice on campuses across India. The portal is supported by the Public Affairs Section of the US Embassy, New Delhi.

This newsletter is a glimpse into what we have been working on and what to look out for.

Stories of Courage: This past month, we profiled some incredible people who have worked towards widening access to education in India. **Click on each image to learn more!**

From Educators, With Love

We called for submissions for a series titled *From Educators, With Love*. The series asked educators to write - in the form of letters to colleagues, students, family members, and policy makers - about their views on educational spaces and their ideas to increase inclusivity in educational spaces. We received several letters, of which 10 were shortlisted. This series of letters posted on the portal generated nearly 300 comments, inviting educators from various schools to discuss their ideas on equity and sensitivity in educational spaces.

Using the letter format - more personal than the traditional essay - meant that the participants were able to draw on and narrativise their personal experiences as educators. This allowed them to share insightful learnings with the reader.

Several participants indicated that the education system would benefit from sensitivity to students' varied needs and from the acknowledgement that education should be tailored to the context in which it is imparted. The discussion on the portal highlighted the need to reflect upon the existing practices and possible ways to bring about change. [Click here to read the letters!](#)

WISCOMP'S Saahas Awards: A Call to Engender Educational Spaces

We invite Educators, Students, Administrative Staff Members, and others to share their stories of courage and sensitivity in their educational spaces.
